

Correction/Clarification "Future of Automated Red Light Cameras"

Correction/Clarification

In the May 6, 2020 story published on the *Dominican Star* digital edition, "Future of Automated Red Light Cameras in Illinois Remain Undecided" there were two errors.

The *Star* reported incorrectly that former State Sen. Martin Sandoval, D-Chicago, accepted \$250,000 in bribes from SafeSpeed, LLC. This was an error.

In a [plea agreement](#) with the federal government Sandoval admitted engaging in corrupt activities and taking more than \$250,000 in combined bribes. SafeSpeed was never named in the plea agreement.

The *Star* reported incorrectly that SafeSpeed is "still under federal investigation." That was error.

The Star regrets the errors
